ABOUT US

Worker King is an online service reference platform. We provide vetted and trusted work reference to over 10,000 workforces. Our main business is to ensure that the needs of our customers are met with complete satisfaction. Our business is built on trust, respect, dedication and above all, integrity. The unavailability of finding workers to complete certain tasks when needed at the exact time is the reason why we have developed the app, that does not only give you access to unlimited number of workers, but also provides you with statistics and ratings of workers to help your decision process. The app has features that are able to process your requests with artificial intelligence and suggests the closest, and qualified worker to your request.

Worker app is built on a robust database and code gen that is able to process request and submissions at tremendous speeds, providing AI logics and learning to complete your next possible request. The app's security is made up of SSL certification, application redundancy and injection protection to keep customers and user data secured.
